

## *Excellence in Dynamic Orthotic Management Renowned for Research and Development*

**DM Orthotics is a soft surgical goods manufacturer based in the United Kingdom.**

The company combines tradition and experience with state of the art computer assisted design and technology (CAD/CAM) in the manufacture of bespoke goods.

The world renowned Dynamic Movement Orthosis (DMO) is a bespoke orthosis and can be used to treat core stability, pelvic and shoulder instability, as well as tonal influences. It can also be used for many adult neurological presentations including;

- *MS*
- *CVA*
- *Cerebellar Ataxia*
- *Traumatic Brain Injury*
- *Hypermobility*

*DM Orthotics Ltd understands the need for and is committed to providing relevant research on the DMO. Please see our website for more information.*

### **The Product Range Includes:**

- *Gloves*
- *Socks*
- *Suits*
- *Vests*
- *Shorts and Leggings*
- *Shoulder Stability Orthoses*
